

Z DISPLAY TECHNOLOGIES

DISPLAY SPEAKS LOUDER THAN WORDS

Gone are the days of using backdrops, posters and roll-ups at Qatar's most glamorous events. With over two decades of experience in events, exhibitions and production in the Middle East region, we march into the new world of technology where LED screens are all the rage with 7 Display Technologies.

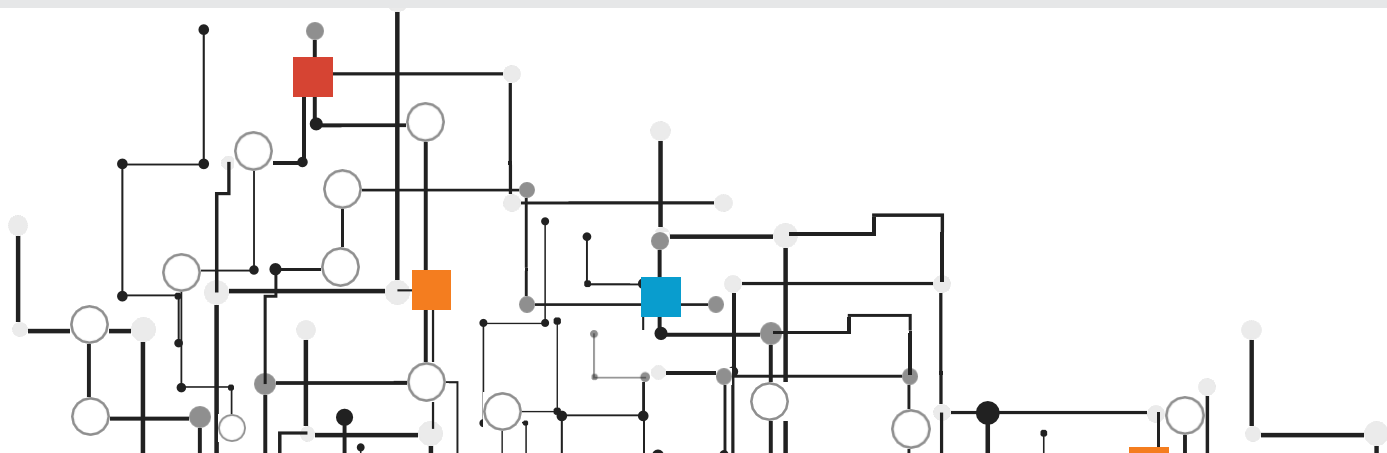

Specialized in high density transparent LED visual solutions, Display Technologies by Zainconcepts' latest partnership with Nexnovo, the inventor and leading manufacturer of the world's first transparent LED displays, is leading the way with new age visual aid solutions.

Creating 80% transparent digital posters based on pixels that create enhanced visuals, 7 Display Technologies focuses on delivering a mesmerizing experience for its audience. These delicately arranged thin and transparent panel of lights are easy to install, have a hassle free set up and bring life to any Event, big or small. Focused on design specialists and engineering consultants who work with high rise buildings, this technology can also be used for events and entertainment.

With lightweight tiny LED lamps that resemble a screen or curtain on any surface and areas including high rise buildings, hotels, shopping malls, stadiums, event spaces, and showrooms. These structures are portable and cost efficient than traditional printing methods. The temperature-resistant and energy saving lamps can also be custom made to fit into required spaces and are easy to install. 7 Display Technologies by Zainconcepts also specializes in fiber optic LED effects for ceilings, LED gardens, bespoke chandeliers, holograms, video displays, video business cards and modern display solutions for all branding and advertisement purposes.

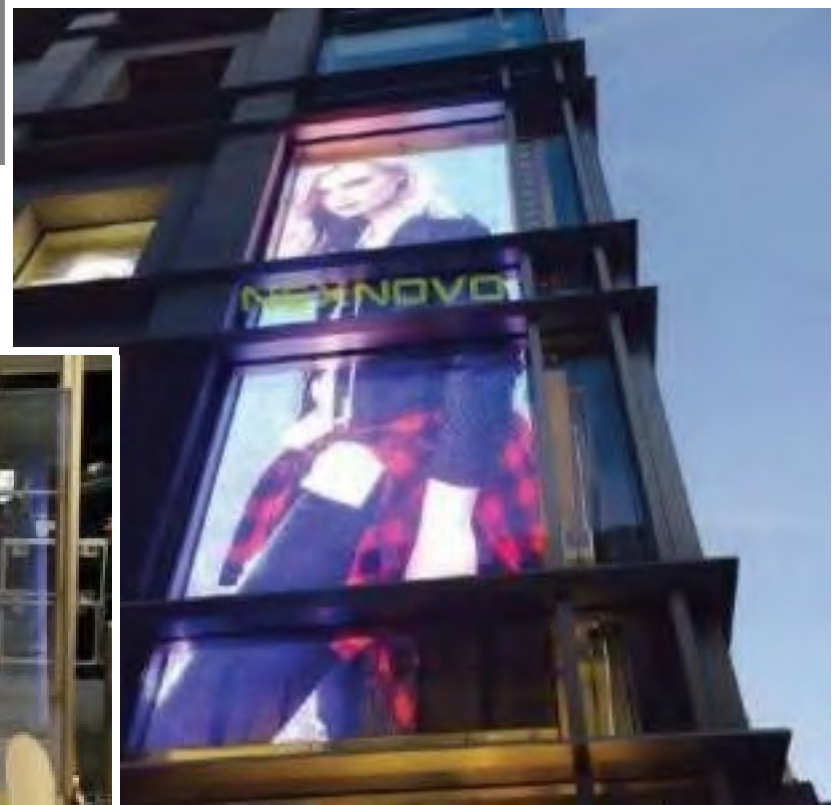

WHAT MAKES US DIFFERENT FROM OTHERS

- 1** Introduction of the latest display technology
- 2** Any space can be converted into a display
- 3** We give customized solutions for each space
- 4** Easy procurement from across the globe
- 5** Technically trained work force to provide insights on major brands, thus adding value
- 6** Best price support with Annual Maintenance services.
